

Statements – Loreen

Karma karma come and dance with me
Read between the lies and set me free
Imagine the beginning of the end
And we don't need to ever talk again
We don't need your way out
We don't need your way out
We don't need your way out
Words cut but I don't care how much it hurts
Shades for the blind
Can't hear your empty words
We don't need noooooo
We don't need noooooo

Mother Mary try to keep it real
Save your prayers for peace and let us heal
Did our best but you say otherwise
We're building up for war in paradise
Why
We don't need your way out
We don't need your way out
We don't need your way out
We don't need your way out
Words cut but I don't care how much it hurts
Shades for the blind
Can't hear your empty words
We don't need noooooo
We don't need noooooo
